“There has never been a successful vaccine for SARS or MERS, two viruses related to SARS-CoV-2 (the virus that can lead to COVID-19 disease.) Animal models revealed that although experimental SARS and MERS vaccines could create high amounts of antibodies, when challenged with exposure to the wild viruses they were supposed to be protected against, **the animals instead developed severe, even lethal disease reactions.**”

Ashley C: I'm a 21 year old CNA at a nursing home i was working and completely healthy i got told to go get the vaccine (from peer pressure bc i didn't want it) talk to a lady told her i had seizures in the past i had a cold and have allergies to shellfish amoxicillin and penicillin (SHE CROSSED THEM OFF AND PUT N/A! ON MY CONECENT FORM!) I took the vaccine at the 12:02 on Jan 8 i walk around and made my way to my seat and immediately felt my heart racing getting hot and dizzy i tried everything to calm my heart down and nothing worked i put a cold water bottle on my head and watched my Apple Watch to see how high my heart rate was it was 176 when i checked that's when i new something was wrong i stood up to get help and i just collapsed. I couldn't move after my hands and legs seemed paralyzed my left side of my face was all pins and needles feeling. They say i had two seizure like eps i was throwing up and screaming in pain. I then had two epi pens in the left leg i couldn't feel it at all Bc my legs couldn't feel anything my legs where completely numb and well paralyzed the emts came i was extremely tired and weak and hurt everywhere. Half way through i gained movement in the first three fingers in both hands and then the left was very delayed i still had pins and needles feeling i could feel my legs in the er but i didn't no i couldn't move them much i gained pins and needles feeling and it got worse and worse first it started in my toes and it's been getting worse up my leg. When i was discharged from the ER i noticed that my feet where purple we tried to plop them up they would change in color back to normal but still freezing cold and would turn purple right when i put them down. It's come to the point of painful and pins and needles feeling is worse it's been worse on the left then the right the whole time i can't walk without support and my walker and it's very painful. I went to Boston hospital to get my feet checked out since they are purple and now i need to get a biopsy done to my feet. I reported it to Pfizer and they will be calling my in the next few days i was told
